EcoBurner
REIMAGINING BUFFETS

Level 2 - EcoPan Powered by EcoBurner

Go waterless using the chafers you already own!

Simply replace the water pan in your existing chafer with an EcoPan to create a fully waterless buffet. It's the most cost-effective way to go waterless with minimal investment in new equipment.

#5330
EcoPan X5

GO WATERLESS

- No more filling, heating or wasting water.
- Better quality food - no steam/ condensation dripping.
- Saves water - more sustainable.
- No electricity, batteries or cables needed.

*Each EcoPan **saves 2,200 litres of water** every year if used instead of a waterpan!*
